## Post-Secondary Visits

As part of our career education priorities, Turtle Mountain School Division encourages students to take advantage of open houses and spend a day programs at any interested post-secondary schools. To assist families that may have scheduling difficulties, the school division assists by arranging visits. I will be sending out letters shortly to ask if any families or students are interested in taking advantage of this opportunity. Post-secondary visits do not begin until the New Year so you do have time to dialogue with your children. However, I encourage you to strongly consider this offer. For some students, the transition to any college or university can be difficult. Help them make this adjustment by taking advantage of this experience before they leave home.
